MEMORANDUM FOR: Project Director

SUBJECT: Personnel

25X1A

25X1A

The recovery of technical personnel from Project [REDACTED] for redeployment to my Radio Stations on behalf of your Project operations has ceased to be a possibility. The DCI has directed in writing that [REDACTED] technical processing continue for at least one year. I continue to be unable to augment my station personnel in the support of System #2 operations while meeting all other continuing commitments. It is again requested that you favorably consider the use of Air Force SAC and AACS technicians for this purpose, at least for the first 9 months of operation. This period would permit me to acquire sufficient qualified personnel to assume the task in a normal manner.

25X1A

[REDACTED]

Director of Communications
